ssembling	Andrew													
D Printing Parts ssembling Link 1-3	Entire Team Andrew & Paola													
ssembling Link 4-6	Matt & Rym				-									
older wires on breadboard	Andrew & Paola													
otors and Power Distribution ttaching motors to Link 1-3 on Knuckles	Matt & Rym Entire Team													
ttaching motors to Link 4-6 on Knuckles	Andrew & Paola				-									
onnect Stepper driver to microcontroller and test motor spin	Matt & Rym													
est and modify motor's microstep for smoother motion on Arduino est for fully built Prototype 1	Matt & Rym Entire Team													4
imulation	Matt													
esign a simulated version of the robot on RViz ssociate virtual joint links to the physical arm	Matt													
ssociate virtual joint links to the physical arm etect the AprilTag on RViz and its distance from Camera	Matt Matt
